

Real Weddings

Have YOUR Wedding
Featured on our
Website

Central Coast Bride

Central Coast Bride is now accepting applications to be one of our Featured Central Coast Wedding in the REAL WEDDINGS section of our beautiful Website!

Unlike with Bridal Idol, there is no public competition. This is perfect for those brides who are not competitive but would like to see their wedding photos and story shown on our Website. These Real Wedding examples are a great resource for brides currently planning their wedding. Want to help inspire other Brides-To-Be?

Our Central Coast Bride staff will select some weddings from the submittals and then post the information online. There is not much work to be done on your part. See instructions below. Application form is separate and is also posted on our website.

How REAL WEDDINGS Works

- 1/ **Complete the Application** (click on Application)
- 2/ **Fax or email or mail your completed application** (fax, email, and mailing address at bottom of this form and the application form)
- 2/ **Have your Wedding Photographer submit up to 25 photos from your wedding on a DVD** (mailing address in the footer of this form). Be sure that the photographer includes your **Names** and **Wedding Date** on the DVD so that we can match photos with the applications. (Ideally, your photographer will submit a copy of the Real Weddings application with the DVD.)
- 3/ **Selection.** Central Coast Bride staff will select a handful of weddings to post.
- 4/ **Posting.** The selected couple's weddings will be displayed in the upcoming Real Weddings section of our website. Posted weddings will be periodically cycled out, generally once or twice per year.

What To Do Next

Simply 1/ complete and send in the Application and 2/ notify your Photographer. ***We are currently accepting Wedding Dates from both 2008 & 2009.***

Deadlines

Application & Photos must be received by June 15th.

We look forward to hearing from you soon!

With best wishes,

Carolayne Holley, Publisher
Central Coast BRIDE
